The whole session as the recording and the Foundry chat log have it: every speaker's track transcribed by machine and merged on the clock, with the table's rolls and chat cards in between. Verbatim and unedited — the stumbles, the cross-talk and the mis-hearings are the real thing.

 a roll  a chat card (an item, a feature, the party stash)  a whisper or a blind roll the players did not see

00:00:00	DM	okay all right any other questions housekeeping okay so we can get started um let me just make sure i'm not sharing okay oh i am where am i stop streaming okay all right all right i love it and you're using chrome so you're i was chatting with tom earlier i'm like oh my god i can't believe drew is like probably like what the fuck are these guys talking about i don't see half the buttons okay well yeah i'm hopefully hopefully now it's much easier for you um yes so where we last left off oh one last thing is if you look at the journals there is a summary there if you need to reference it there's an adventure log but yes where we last
00:00:01	Gren	excellent yeah yeah yeah that's right we don't we didn't really interact with anybody we tried
00:00:25	Jetten	No feedback this time. I figured it out guys. So thank you. Well, right
00:00:39	Jetten	You're like it's right there. I'm like dude. There's nothing there. I swear to God No, I had it. I had it. I had a rig last time. I had it on on my projector And so now I just have a separate monitor
00:00:59	Jetten	Absolutely
00:01:12	DM	last left off you left daggerford and the silver gauntlet you met a couple strangers on the way um on the road you discovered a cart that looks like it was ambushed you explored you found indeed that there's a bunch of merchants that were attacked by hobgoblins and they dragged the bodies down below in a cave and you quickly dispatched of them um uh thomas found a magic sword that actually is a paladin sword of his order and he attuned to it um and you you camped in the cave for the night and based on your map to the broken heart and green rest i think that showed it um you're approximately where at the point where you would want to start heading east to green rest and make your way through the forest so you wake up fresh
00:01:23	Jetten	We have to make our way there anyway, well does anyone have a problem with us?

00:02:25	DM	in the cave uh you i believe buried the bodies and and thomas gave them a proper ritual um i'm not sure what you did with hobgoblin bodies um but i leave it there yeah
00:02:42	Thomas	So I've been thinking, men, isn't Grin is from these parts. Aren't you from these parts, Grin?
00:02:51	Thomas	I'm a little worried because no one seems to know anything about this green rest that we're making our way to. What do you know about it?
00:03:05	Gren	to stay hidden in the woods so i don't know anything about it it may have been in one of the regions that we tried to avoid i don't know but i would guess so can i do a a history check
00:03:17	Thomas	Is it a human town?
00:03:19	Thomas	I would suggest our sneakiest characters should go first and scout out.
00:03:33	Morgash	If I'm there, I'll follow, and also since I'm following him I'm going to do a survival check
00:03:36	Gren	matthew that history see if i remember any village lore no i think we should not terribly i
00:03:38	DM	uh let me see uh history yeah i think you could do history that's that seems to make good sense you know that there are there are settlements in in the misty forest that you know are generally small they're secluded they're private uh it wouldn't surprise you that there's a little village that no one's ever heard of before at least in your in your community um it might be known to some traders that come and come through and pass from time to time
00:03:53		Gren Greenmantle — Intelligence (History) Check: 1d20 - 1 = 14
00:04:27	DM	but it's not big enough for you to be familiar with or at least you think so this is the hypothetical camp so you had to tell me like if you're ready to head out if there's anything else you want to say? okay uh yeah yeah the cave uh the cart is still there morgash feels compelled to just pull the cart off to the side and clean up the road and he does so and you start heading east
00:04:40	Jetten	Heading over and making our way east towards Green rest. Oh, you mean me? I'm happy to do that
00:04:57	Thomas	I don't know how sneaky Grin is as a gnome, but I know Jetton's pretty sneaky. I don't know much about gnomes.
00:05:03	Gren	think jetting should lead the way yeah yeah i i look at more gash and ask him if he's ever seen
00:05:09	Jetten	So, okay. So it's this way along the road, right guys. I'm gonna step inside to the outcropping. That's a good idea. Oh
00:05:40	DM	um this morning you travel for several hours and you come across um what's clearly the misty forest it is an outcrop of trees very foggy and um that's all you can see from the outside looking in

00:06:11	DM	okay so what were you trying to survival check morgash? no you don't you're just like the fog could be dangerous i don't know
00:06:12	Thomas	Jetton, hang on a minute. I'm wondering if I should use one of my skills, which is to sense danger,
00:06:28	Jetten	Cool. Yeah, not at all. If I'm not back soon coming after me. I'm sorry on in I think this is
00:06:29	Thomas	which is, I believe that's channel divinity. I think I'm going to wait until we're actually in a little bit, and then I'm going to cast.
00:06:40		Gren Greenmantle: Mage Armor 1st Level • Abjuration You touch a willing creature who isn't wearing armor. Until the spell ends, the target's base AC becomes 13 plus its Dexterity modifier. The spell ends early if the t ...
00:06:44		Morgash the Gravemaker — Wisdom (Survival) Check: 1d20 + 1 + 2 = 5
00:06:53	Morgash	check if there is something dangerous around like I have no clue don't worry I think that there is
00:07:10	DM	yeah yeah so thomas invictus um you do know from your abilities that you can you can sense these types of creatures celestial beings and undead it only lasts for 10 minutes and you can only see or detect these types within 60 feet of yourself so generally speaking your training as i was told you use this when you actually suspect a need to confirm
00:07:36	Thomas	Jetton, do you mind just going in and scouting it out for a minute? And then coming back and letting us know what's up.
00:07:42	Thomas	I have to tell you, friends, since I've spent most of my life so far as a scribe, this is not comfortable.
00:07:46	Morgash	nothing dangerous around here I'm going to be behind him not too close so that I don't get in
00:07:56	DM	okay um give me one second let me drag some pcs so jetten you enter the forest and um you feel actually sort of at home and you wave the others in oops there's two of you now um no that's my fault so i put you on the map uh it is definitely misty and you understand why they call it the misty forest now uh there are trails for you to follow um gran you actually feel pretty right at home this is what you're used to it's a forest uh every once in a while you see little animals skitter and look at you um and for the most part it's it's just the woods that you've always known and grown up with and there's nothing nefarious other than the ever-present fog which you know gran is not
00:09:09	DM	necessarily evil it's just the way that the forest is so how would you like to travel through the woods um does jetten want to scout out? a certain number of feet ahead do you want to travel in an order?
00:09:29	Thomas	I'm glad none of you is nervous.
00:09:35	Jetten	Yes, listen Look obviously if I'm going ahead I'm gonna be using my passive perception I don't think I need to use stealth like sneaking through the woods. That seems a little bit like an overkill, but

00:09:46	Thomas	Personally, I like the idea of having a scout.
00:10:02	Morgash	he's way off I'm going to try oh my god that's good right now I'm not sure I'm more most of a
00:10:08		Gren Greenmantle: Mage Armor 1st Level • Abjuration You touch a willing creature who isn't wearing armor. Until the spell ends, the target's base AC becomes 13 plus its Dexterity modifier. The spell ends early if the t ...
00:10:17	DM	probably okay okay so yeah jetton continues to lead the way um this is a very large forest so uh you know the map actually continues um you don't have to walk off the back you're good let me just narrate for a second um so you actually start marching your way east through the forest
00:10:20		Morgash the Gravemaker — Wisdom (Survival) Check: $1d20 + 1 + 2 = 7$
00:10:22	Jetten	Why guys why don't you stay within like? You know one one turns Movement radius like, you know, 30 feet or something like that. Don't get don't let me get too far ahead So you can catch up, you know
00:10:41	Gren	a tree have you ever seen a tree let me can i roll at advantage because i'm from here
00:10:44	Jetten	Okay, taking a break here. Do you guys think that we're close to green rest and should we press on I think we should press on
00:10:53	Morgash	city guy recently I'm trying oh sick turns we'll take the sec if you are going to take the first
00:11:31	DM	it's the best you have based on the map um and following these sort of faint trails that aren't quite they're more than deer trails i'll leave it at that um and normally when you're trying to navigate in the woods uh one of the relevant skills is survival helps you tell east from west up from down and what i was going to say is that's there you go yeah every once in a while you're going to have to do a survival check to get around it and then you're going to have to do a survival check to go to the forest so everybody can roll a survival check and this helps determine if you get lost a little bit and gran you can roll it at advantage because this is where you're from okay well interestingly enough morgash uh keeps on pointing jetton to the right direction and saying
00:11:57		Morgash the Gravemaker — Wisdom (Survival) Check: $1d20 + 1 + 2 = 23$
00:12:16		Thomas A. Invictus — Wisdom (Survival) Check: $1d20 + 0 + 1 = 12$
00:12:18	Gren	okay there we go wait so how how far i think so might
00:12:20		Jetten Elisedil — Wisdom (Survival) Check: $1d20 + 3 + 2 = 11$
00:12:20		Gren Greenmantle — Wisdom (Survival) Check (Advantage): $2d20adv + 1 = 11$
00:12:28		Gren Greenmantle — Wisdom (Survival) Check (Advantage): $2d20adv + 1 = 15$

00:12:44	DM	no i think it's that way and and jetton looks back and he's like oh yeah you're right um i should know I'm not sure why Morgash is so much better than everyone else at navigating his way through the woods. Maybe it's he's careful because this is the first time he's actually been in something like this. Unclear. But you continue on in what you think is the right direction for several hours. And at a certain point, you decide that it's about time to just take a quick rest in a clearing. So I'll let you talk amongst yourselves for a couple of seconds. You want to take your rest. Just give you a little time to chat amongst your characters.
00:13:42	DM	No one's sleeping. You're just kind of taking a break from the march. Yeah. Yeah. And actually, based on your survival skill check, Morgash, you feel that you're at least halfway there.
00:13:46	Thomas	I should stand guard while you rest, or at least rotate. Yeah, I mean, based on the map, Grin rest should be about the same distance. The edge of the forest, as the edge of the forest was from the road.
00:14:00	Morgash	turn then I will take the second so that you could also run okay getting a snack we should we have been walking for a really long time yeah I think that we are halfway there I hope that the next half it's peaceful but probably so one thing yeah I don't want to
00:14:59	Jetten	I mean, I agree I mean, I'm back. Can we can we can we tell what time of day it is? Well, I would I would say that I think we should press on to try to make it to green rest before nightfall
00:15:00	Thomas	So far, it seems, yeah, I mean, I'm not, yeah, that's a good point.
00:15:05	Morgash	be here when the sun comes down so yes okay and then I'm going to attack that's it
00:15:15	DM	It's probably like a little after midday. You left the cave. Early morning, and you've probably been marching for four hours.
00:15:32	Thomas	I agree.
00:15:33	DM	Okay. All right. So as you start to gather your things and move, the clearing that felt like such relief, something has gone wrong. The birdsong has stopped. The mist between the trunks hang perfectly still. Then the underbrush at the tree line rises and shapes begin pulling themselves upright out of the fog on every side of you. Small, dry things of twig and thorn. Walking on legs of splintered branch. Faces like splitting seed pods creeping trunk to trunk towards you in your half-struck camp.
00:15:47	Jetten	Does anybody know what these creatures are I do that? Okay with the game balls. Come on
00:16:14	DM	There are five of them. And they have your rest ringed on every side. And they are moving in.
00:16:24	DM	So, yep. Give me one sec. I want Jetten to roll a survival check. And Gren, I want you to roll a survival check as well.

00:16:43		Jetten Elisedil — Wisdom (Survival) Check: $1d20 + 3 + 2 = 17$
00:16:44	Gren	my game is paused and i can't get on my character i can't double click on the thing let me say all
00:16:46	DM	Yes, you are paused, because I don't want you all running around the place.
00:16:49	Jetten	You can do it. You can still you can still roll it. Hey, you got mine. Nice grand. Mm-hmm. Oh boy
00:16:57	Gren	right hey matt i did the mage armor did never there was no effect it it won't i did that but
00:17:05	DM	Yep. Well, I'll take the 20. You know, you have to roll for advantage. So, Jetten, I had you roll because you're a ranger, and I had Gren because this is his native land. And because you both passed your check, you will not be surprised when we enter into the initiative of this combat. And so, yes. You see sort of vine-like creatures approach you through the bushes and vine blights. So, Gren and Jetten, you may roll at advantage for your initiative.
00:17:07		Gren Greenmantle — Wisdom (Survival) Check: $1d20 + 1 = 21$
00:17:37	Jetten	wing blights here, so You just gave us this lesson. Here we go Rally guys comrades can you see that we're surrounded? All right, I'm going to Get a mark I'm gonna use hunters mark

00:18:01		Thomas — Thomas rolls for Initiative!: $1d20 + 0 + 1 = 20$
00:18:05	DM	Oh, you can drag the effect and apply it to yourself. Did you do that?
00:18:10	Gren	it won't let me because it says only the gm can do that yeah yeah it's compendiums okay
00:18:13	DM	Really? I can't. Eventually, we'll do the automations. There you go. Yeah.
00:18:21	Gren	i yeah i know yeah no kidding yeah i think you're
00:18:24	DM	Okay, you're mage armored. And everybody... Oh, Gren, you have to roll for initiative.
00:18:34		Gren — Gren rolls for Initiative!: $2d20adv + 2 = 14$

00:27:41	DM	Yeah.

So the Twig Blade has a claw. And he gashes out at Morgash. But misses. And that's all that one does. Now there's another Twig Blight. He approaches Thomas and uses his claw attack as well. But misses. And there's the Twig Blight that Thomas has attacked. He swings with his claw, but he has a different attack. Hold on a second.

00:37:45	DM	Wow. That's because you, it will source, the eight, it will let you roll for more damage because of the sorceress burst chaining.
00:37:54	Gren	and my turn yes these are a corruption of life itself perhaps there's more corruption
00:38:02	DM	But because it was fire and it's wood, you actually do twice as much damage. And I'll just mark that separately. OK. Anything else? All right. The Twig Blight next to Morgath tries to attack with his claw but misses. OK. The Twig Blight next to Thomas attacks him with his claw and misses. Thomas. Thomas. 00:41:10		Vine Blight: DC 10 Concentration Concentration
00:41:27	Jetten	Twig blight the one that's on the other side of Thomas. I already marked it. Okay All right, and then

00:41:31	DM	That was actually the one that you had marked before. So you don't even have to do that. OK. Yeah, and once you kill the Vine Blight, the vines that he was concentrating on disappear. Otherwise, it would have been difficult terrain for anybody walking in. Borgash. Yes, strong hit. Oh, and you swipe it and kill it. You look around the battlefield and you see just the one Twig Blight remaining. And you charge towards it.

And Jett and you realize that this clearing was probably a perfect place for them to set up an ambush for any sort of person that comes by. OK. All right, roll me another survival check
00:46:56	Jetten	of these creatures are nearby wow that was an advantage wow wow right he was he was in the

00:48:47	DM	He sees Grand Thomas. OK. And why isn't? OK. So you continue through, and you march for another several hours.
00:49:25	DM	To the east, you can see. Yeah. You can see the The misty round here gives way to a bare, wet rock, low cliff rising out of the fog. It's gray and streaked and split near the base by cleft taller than a man. A single small light hangs before an opening. And it sort of sees you. And you're like, oh, I have to go. And you're like, oh, I have to go. And you're like, oh, I have to go. And you're like, oh, I have to go. And you're like, oh, I have to go. And you're like, oh, I have to go. And then, the ice marine, he Gruff sees you and moves around. And it's round, and warm like a candle. Yet, it casts no glow on this stone and throws no shadow. As you watch, it drifts towards you. Then back to the cliff. Quicker and insistent the way the hand beckons someone who is running out of time. So, almost as if it's pleading to you.
00:50:38	DM	It wants you to follow. It then slips a little way into the beautiful darkens the ocean. And never comes back until. Finally it takes a Juggernaut. cave and disappears around the corner. Yes, it does.

00:52:20	DM	Yeah. Okay. Let me give you a little information. So as you enter the cave, a slow roll of cold air crosses your ankles. There's wet stone and something that smells a little sweetly rotten. You can see just a little bit of light emanating to the left. It looks like the same dancing light that you saw before.

01:56:48	DM	medicine okay so So yeah, give yourself a plus 1d4. Yep. The 1d4s, that could honestly matter. All you can tell is these bones have been picked clean. So ahead of you, Jetten, is some webbing that you might get stuck in. OK. Yep. You feel like these temples, I can't remember who had the 20 on the religion check,
01:56:50	Gren	for his medicine check let me yeah yeah yeah i'm a little worried about i'm gonna i'm gonna burn it
01:57:02		Thomas A. Invictus — Wisdom (Medicine) Check: $1d20 + 0 + 1 = 5$

01:57:37		Gren Greenmantle: Sorcerous Burst Evocation You cast sorcerous energy at one creature or object within range. Make a ranged attack roll against the target. On a hit, the target takes 1d8 damage of a type you choose: Ac ...
01:57:37	Jetten	of the party listen if you want us to investigate there looks to be more down here this looks like the beginnings of a dungeon guys do we want to get into this we want to get into this right now or not well i think that was thomas what are these golden um things that we see on the ground okay let's not eat the mushrooms guys unless i can't do they look like any god they have any special add do they have any special qualities these mushrooms
01:58:02	DM	but your memory is these temples are actually pretty small, especially when they're built by elves. Those are mushrooms. Yeah. So you realize there's a door up here and a door here. Do survival check. Barely edible, horrible tasting. You've seen these before. You can click on it, and it'll open. There you go. Looks like some kind of old storage room of some sort,
01:58:28	Thomas	the research altar yet optimist i got a latching elastic this is a magic lant and
01:58:31	Gren	there's somebody open this door let's search this room too i wonder why double clicking on
01:58:35	Jetten	we get some some magic mushrooms get plenty of food i'm going to take a look at the door on the right here if it possible
01:58:46		Jetten Elisedil — Wisdom (Survival) Check: $1d20 + 3 + 2 = 15$
01:59:01	Jetten	is the body a human body an elf body yeah sure there we go i got it i've got the i've got the
01:59:15	DM	long ago abandoned. OK. So down here, actually, looks like a body of some sort and pile of loot, probably from whatever other creatures that these eddercaps had been luring in with the willow of wisp and feeding on. Yes, let me tell you a little bit about that. There it is. It does look like a, I'm not sure if it's elven, but it's certainly a fey creature of some kind. It's probably been dead for maybe several months.
01:59:27	Gren	my character is not working is there a loot chest there andrew can you move over there andrew can you move over there andrew can you move over there andrew can you move over there andrew can you move jetting so i could click on the loot chest oh oh it's not a clickable one sorry what did sorry what
02:00:29	DM	It looks like some kind of fey creature, but it's hard to tell. Possibly an elf. Sure. You see that there's still a dagger on it.

02:00:35	Gren	did you say what was the first thing matt about the body we searched the body how'd you do that i can't click on it for some reason i can't click on anything actually i'm gonna re yeah well you should take the float because you also hide right yeah i mean yeah oh wait a lantern of revealing will help us find the body oh wait a lantern of revealing will help us find the body oh wait a lantern of revealing will help us find the willow wisp yeah will help us find the willow wisp yeah will help us find the willow wisp yeah will help us find the willow wisp yeah jetton i think you get i i think you get jetton i think you get i i think you get
02:00:52	DM	That's about it. Yeah, you're generally familiar with hooded lanterns. But not only does it shed light, but you
02:00:55	Jetten	loot just open guys so there's a there's a green rest tonic a cloak of elven kind a scimitar lantern of revealing and a potion of healing i'd like to grab the scimitar guys because i use a scimitar i do but thomas why don't you grab the lantern since you're the one that's always blind
02:01:30		Matt the DM: Jetten Elisedil picked up the following items: Gilded Scimitar 1 Cloak of Elvenkind 1
02:01:33	Jetten	got it thank you guys well i don't know i don't know i don't know i don't know i don't know i don't need that maybe you want to if you want to knock somebody out more guys you probably need those healing
02:01:41		Matt the DM: An item pile's content was split among 4 players, and each one has received: Gold 67
02:01:49	Gren	jetton i think you get i i think you get both both both yeah let's let's use it but jetton the yeah let's let's use it but jetton the yeah let's let's use it but jetton the the scimitar and the cloak are just the scimitar and the cloak are just the scimitar and the cloak are just for your care i mean that's what i you for your care i mean that's what i you for your care i mean that's what i you know know know what does it do what does it do what does it do ooh ooh
02:01:54	DM	can see invisible creatures with it as well.
02:02:08	Thomas	green rest tonic from the town whoever drinks the swallow sleeps utterly without dreams for the next seven nights no apothecary could name any other virtue and ignore that probably go to the khai we do mine he surface all right miscommunication jargon whew i wasinenio for now i'm kinda likely to you in it nor say why anyone would brew such a thing so what we have left is the lantern the green rust tonic and a portion of healing all right i guess i'll take that stuff
02:02:41	Jetten	potions because you're always in our front line somebody want to split up the gold there's no gold right okay traveler or whatever he was don't you have it thomas and you should attune to it
02:02:43	Gren	there we go so it's already it's already split up but let's let let's the lantern of revealing no but somebody somebody use it oh yeah so so it some yeah so it attuned to it and then we'll

02:02:47	Morgash	someone will take the green iconic I click I click the one that split things in Ford everyone should have some gold from that you are awesome thank you thank you thank you thank you thank you was 200 and something. Yeah, let's find that. Yeah. Use the lantern and try to find that.
02:02:48		Matt the DM: Morgash the Gravemaker picked up the following items: Potion of Healing 1
02:02:53		Matt the DM: Thomas A. Invictus picked up the following items: A Dose of Greenrest Tonic 1 Lantern of Revealing 1
02:02:54	Thomas	and is there currency in here or not okay well i'm gonna okay i equipped it but i noticed that i that's another one of these items that somebody could attune to this fyi but
02:02:59	DM	No gold. Yeah, there was no gold. It doesn't take that long. It doesn't take much effort to speculate that whatever is in this chest was from that creature that was now a corpse. Yes. Yeah, you could spend a short rest to, attunement you can do over a long rest. But just for sake of speed, you use the lantern and it appears that the wisp is gone. You can only speculate that whatever
02:03:41	Thomas	i have but i've just equipped it can i attune to that without resting oh yeah click on long
02:03:48	Jetten	build it so i click on the um attuned sure gold thorn it's a pretty cool
02:03:50	Gren	search for the willow wisp he may be got it well we're going to seek vengeance on that willow
02:04:13	DM	symbiotic relationship it had with the eddercaps, uh, no gold. No longer saw it useful. Yes. You do that. Jetten, as you handle the gilded scimitar, gilded? Gilded? One of the two. Gilded. Um, you feel like it sort of wants to speak to you. Not dissimilar from the way Thomas Invictus' sword spoke to him. Gilded. If you attune to it, it might identify itself a little bit more, too. Yeah, well, I'll just identify it for you. And then you can attune to it. Yeah, it reveals itself to Goldthorn, which has a little bit of history.
02:04:23	Gren	whisk because it tricked us it in all of its kind in the future gilded that's a good spell
02:05:20	DM	And you see that it can cast fairy fire once per day. Yep.
02:05:31	Jetten	lost with its bearer to the webs of a hidden temple in the misty forest and dormant ever since since its old dawn waiting on a worthy hand to such a hand its fey magic stirs once between dawns it throws off a bloom of clinging fairy light that lets nothing hide and shadow so that means once a day so cool you're such an edge lord and then i can you know i mean not that it just but for role-playing purposes since i don't take a long rest i'll kind of stay closer to the entrance of the cave and i'll take my um reverie and um go into it you know uh an
02:05:54	Gren	unfortunately it also says a worthy hand jetting so it's got to go to someone else

02:06:08	DM	You feel like you've pretty much cleaned this temple out. You've burned the webs, whatever was breeding here in the form of the eddercaps. They've been killed. This would probably be an OK place if you wanted to take a long rest for an evening. OK. And you can keep guard, just in case.
02:06:23	Gren	let's definitely do that that's that's this right here the black in the middle of the city
02:06:42	Jetten	active trance and then i can be you know completely conscious for the other half of the long rest exactly and i'd like i'd also like to grab back half my arrows for eight so that means four
02:06:56	Thomas	recipe right now right i see that is did you just say that the the tower might be a place we could
02:07:02		Jetten Elisedil: Jetten Elisedil takes a long rest.
02:07:08		Gren Greenmantle: Gren Greenmantle takes a long rest and recovers 4 hit points.
02:07:12		Thomas A. Invictus: Thomas A. Invictus takes a long rest.
02:07:13		Morgash the Gravemaker: Morgash the Gravemaker takes a long rest.
02:07:15	DM	OK. OK. So the night passes uneventfully. You rest up, heal your wounds, attune to your magic items. And you head out, continuing east, looking for the village of Greenrest. Uh. Uh. Uh. Uh. In the morning, you travel for about two hours. And you find a place where the trees thin. The trail climbs to one last rise. And the forest lets you go. The mist simply ends and burns off in a cold, gold clean sunlight. Looking down, you see, cradled in green meadows under a cloudless sky, a village, which you can only, Resume is green rest. Give me one second.
02:07:19	Jetten	wow
02:08:27	DM	Player handouts. Green rest.
02:08:37	DM	Figure ownership. All players.
02:08:50	DM	There we go.
02:08:54	DM	Yes.
02:08:56	Jetten	hey is it me and anthony or me and tom that are traveling
02:08:59	DM	Boyou, cradled in the green meadow under the cloudless high. You see slate roofs clustered snug around a market square. Chimney smoke rises straight up. You can see orchards and hedged fields quilting the slopes below you. In the distance, you can hear birds. You see cut hay, and you can vaguely smell wood smoke. To your right, you see an old stone watchtower keeping the height and a worn path spilling from its foot down the road. Only one thing catches your eye. In the very heart of the village, alone in all of that green, stands a single great tree that's gone gray and sickly. The one wrong note in an otherwise perfect song.

02:09:59	DM	Yes. Yes. So I'll decide for you to, if you want to, see what's in the tower, go down into this village. We can do that in the next session. You do level up.
02:10:18	DM	So I know we have some. Probably some downtime because people are traveling. But you can log in and level yourself to four. You might want to look at the player's handbook, see what happens. Your biggest thing is you get to choose a feat. So more powers for you. And then, yeah, the next time we'll play, you can explore the village a little bit and decide which of the four shards of the broken heart you want to look for first.
02:10:52	Thomas	go before we go down or not yeah no probably whenever we went to key west at 10 this last
02:10:54	DM	Yeah, you're actually kind of. Maybe 300 yards from the tower, and it overlooks the village. So that's an option. Or you could just go straight to the village.
02:11:11	Jetten	tom i know it's not i know it's not rob but rob was last time you traveled like 10 years oh yeah that's true so i apologize guys i'm i'm going to japan on sunday for just for fun and also i'm going to see my little sister there's a big music festival called fuji rocks over there which is actually pretty cool it's in the like mount fuji i'm back august 1st so i could i could certainly play when i get back i i'm not i'm just not going to bring a computer on on a trip you know and i'm with my girlfriend i think she wouldn't be too happy if i was like playing dnd

02:11:29	Thomas	time i couldn't no no i went to tell a half day a couple of times but basically it's so that the
02:11:37	DM	Mm-hmm.
02:11:58	DM	No, no. And yeah. So the.
02:12:05	DM	No, absolutely not. This whole thing is structured for us to take breaks and stuff like that. So August. Huh? So is 11th too soon? Do you need to recover?
02:12:05	Jetten	i'm sorry to be just a disruptor tom where you at it man oh amazing um where are you going in where are you going in spain
02:12:18	Thomas	oh i just put it down on august 11th at 8 p.m on my calendar is that right oh yeah in the meantime
02:12:20	Gren	i won't be i won't be back till august 10th so i mean it's even yeah no 11th good i'll i'll i'll suck it up and and yeah deal with it yeah uh outside of barcelona just so this yeah yeah yeah it'll be nice though i don't know yeah yeah we're trying to figure out things to do
02:12:32	DM	Deal with the jet lag? All right. So August, I have. Yeah, August 11th. Yep. That works for everyone.

02:12:42	Jetten	what a great town what a great town what's that what's that big um what's the big monastery they have up in the in the mountains up there oh yeah i'll i'll try to remember what it is i'll send it to you in the email but there's a there's a really beautiful there's a really really beautiful yeah maybe that maybe it's montserrat but i would highly recommend that it's pretty amazing right yeah and matt thank you so much i mean the summaries that you wrote and everything and just so cool so amazing yeah so thoughtful well i can't it can't you get look ai ai doesn't care
02:13:01	Gren	in the future so maybe we
02:13:32	DM	You mean that the AI wrote?
02:13:38	DM	Yeah. No, the whole thing is wired up to Claude. So it connects to the server and looks at everything. Yeah. Well, I appreciate it. Thank you. Yeah. So both of you guys have a good trip. And then towards like the 11th, I'll just send out an email or something like that.
02:13:45	Jetten	about the credit you know awesome thank you so much everyone it's been so cool uh oh boy
02:14:01	Thomas	we'll work on leveling up our characters right sounds awesome
02:14:03	DM	Yes, you can. What I'll do is let me put us all back in the camp. Which mean is that. So you can always just put yourself back in the login. You can level up your character and that'll be everyone's homework until the 11th is to get to level four, figure out feet you want, so on and so forth.
02:14:39	DM	All right. Thank you. So far, I'm having a good time. So thank you very much. Yeah. And oh, by the way, like, so this was like the learning curve. It's going to get harder now. So I don't know. You ready?
02:14:40	Thomas	well yeah once again thank you so much for letting us all right come on everybody
02:14:56	Gren	yeah yeah shit thank. i mean there's a few more things to learn but it oh the combats will get harder yeah yeah yeah it was a lot smoother today right yeah great good night everyone
02:14:58	DM	No, the combats will get harder. Navigating the game is like. Oh, my God. We. The you know, everyone was like way more proficient than the first time just from use. Right. And then. I'm figuring after one or two more sessions, maybe like the one after people get back, I'll turn on the automation, which means like when you attack, if it hits, it auto applies the damage and auto applies riders. It just makes stuff go a lot quicker and smoother. But it's better to learn it manually first. Good. All right. Yeah. Good night. Enjoy your travels. Talk to you soon. Thanks. Bye. Take care.
02:15:28	Jetten	nice absolutely and the the upgrade you did was i think really helpful yeah all right thanks everyone good night thank you see you guys on the flip side

02:15:45

Thomas
