Tuesday, 18 August 2026 · recorded 2026-08-18T23:36:25.735Z (03:31:35 long) · transcribed with large-v3-turbo on cuda/float16 · chat events: 696 in window, 1 outside

DM (222) · Gren Greenmantle (161) · Morgash the Gravemaker (155) · Thomas A. Invictus (137) · Jetten Elisedil (123)

The whole session as the recording and the Foundry chat log have it: every speaker's track transcribed by machine and merged on the clock, with the table's rolls and chat cards in between. Verbatim and unedited — the stumbles, the cross-talk and the mis-hearings are the real thing.

 a roll  a chat card (an item, a feature, the party stash)  a whisper or a blind roll the players did not see

00:00:00	Gren Greenmantle	oh wait there we go speak oh no that's the that's the recording okay i whatsapped him
00:00:00	DM	okay oh there he is oh no that no that's the recorder yeah recording started um and then i'll clear that chat locked yeah okay yeah i mean he's obviously like is he on the server yeah he's on the server he's just probably got an emergency um okay so yes i sent you the email combat should go way quicker just remember to target um it will do your damage and rules for you you'll get a pop-up i feel like it's pretty intuitive but you tell me um um and i also sent reminder you know be sure to leverage your hot bar uh what do you get like 10 slots standard kind of crpg style you have like a weapon attack or a spell you like you can just drag that on the hot bar and then you don't have to like fumble around with your uh character sheet and flip
00:00:11	Gren Greenmantle	yeah aware i'm around oh he's okay he but he's not on discord okay so um so those are basically
00:00:22	Thomas A. Invictus	Yeah, there was something in the rules about that, you can change it, right?
00:01:08	DM	through tabs and stuff like that uh yeah so weapon mastery is this new rule that they introduced in 2024 and basically every weapon has a type and it's called weapon mastery and pure martial characters or heavily martial characters like writers paladins and rangers and rogues they can use that so you have the ability to add essentially a rider or other thing to certain weapons and all the different weapon types have different masteries so like your bow like target the practice dummy and shoot your bow at it um every time actually in the game you hit some money with somebody with a bow attack your weapon mastery allows you to apply slow so you can slow them for 10 you know 10 feet but it's so easy to forget um similarly yeah so you could say yes and now i know that slow has been applied similarly like
00:01:10	Jetten Elisedil	Matt, what was your comment about weapon mastery? I didn't understand that one.

00:02:21	DM	for your nick one which gives you dual wield easier there's nothing to do with that but for um i think you have another one like vex um it will ask if you want to apply the debuff and it helps remind you that you can actually get advantage on your next attack um like big big one for anthony is like he has weapons that grant topple which can knock someone over and if you're in melee range anybody can have advantage on it so it's kind of like a real gang pile um they could be very powerful if they're used yes yes yep yep yeah yeah so on gold yeah yeah and the pop-up will basically ask you that for nick you're not going to see anything because it's there's nothing mechanical yeah but you're a dagger same thing it's nick but i think you might have a

00:03:21	Jetten Elisedil	Right, that's what I'm trying here. I do, which is Vex, right? So if I tried that differently, let's see, and then it says, okay, and then if I don't do anything, it will apply it, right?

I have a friend who's a pro gamer. I was like, hey, to an Asus, an Asus 32, and it's the, whatever it is, the ROG, whatever. It was whatever one he goes, this is the best one. 00:05:35	DM	upgrade to which uh what size oh right rog is it an oled did you get an oled yeah so either the ucdm or the ucdm3 the 3 is the most reset it's a little bit brighter better protective coating yeah i don't i don't skimp on my toys which is great because like all of my high-end computer equipment's like tripled in value usually it goes down yeah yeah yeah yeah the my the kit of ram that i have in my workstations is now two thousand dollars for each one um and i think i paid like a couple hundred for it when
00:05:55	Jetten Elisedil	that's why my eyes were bothering me. Yeah. Oh, well, that's true. It's, it's, it's unbelievable how expensive it is now. Like Ram. Wow. That's unbelievable. Wow. I know it's, it's unbelievable. It's like, it's like the way it used to be when it was really expensive and then it was cheap.
00:06:11	Gren Greenmantle	your stuff matt no you don't oh god oh 34 inch oleds are only 750 750 dollars alienware yeah yeah yeah i need the i mean i i do all my work on two 34 inch monitors so i need
00:06:43	DM	i bought them it's crazy yeah yeah graphics uh it's probably an older gen the the newest releases are always a thousand dish yeah yeah all right uh let's get going here um yeah yeah sure
00:06:49	Jetten Elisedil	Who knew? Yeah. It was around, it was around a thousand for the Asus. Hi, Anthony. Yes. Yeah.

00:07:12	Gren Greenmantle	sort of big wide screens let me let me just anthony um let me just add a couple things let's if it's okay with you matt can we have like before combat can we have a couple minutes discussing top uh tactics before before we start and then just so that we get used to it and then we'll fall into it and then robert when you cast bless don't cast it on me because it goes on three people but it really should be the fighters who get it so so cast it on you know be selfish and cast it on yourself because it is that's that's going to do the most damage and i i rarely roll attack rolls so it's not
00:07:34	DM	oh yeah yeah yeah and and the other strategic thing when you cast bless and cast it on yourself because if you get hit and you have to roll concentration chances are you're not going to lose the spell then because if you fail your concentration save then you lose the spell yes yes unless it there's nothing there that that it explicitly says you can't the rules are like super lawyer focused so you're going to be in heaven everything is like exactly what it says
00:07:58	Gren Greenmantle	as important yeah that's right yeah where is it where is it it's on thomas invictus right
00:08:15	Thomas A. Invictus	Okay, I have a question about that, because when I read bless, it says you can bless up to three creatures within range. But then there's another one where I can cast divine favor on myself. So I can bless myself, I can be one of the three creatures?
00:08:36	Thomas A. Invictus	Okay, okay, I see that.
00:08:47	DM	no more no less and it doesn't restrict you then it's permissive um your divine favor is not concentration so you can stack that with less too and that's a good one to cast because like hunter's mark that'll add damage okay yeah yeah yes yes it's so the the rules are kind of loose with weapons it's kind of corny anthony but by the rules you can use any weapon that you want so like let's say you used your maul of momentum and you knocked someone prone and gave yourself extra action you could just then use your great axe and start cleaving you can just swap weapons
00:09:07	Thomas A. Invictus	Yeah, it seems like, yeah, I wanted to, yeah, I wanted to make a comment.
00:09:16	Gren Greenmantle	oh there it is oh and it's a bonus action oh i didn't take the pearl of power though i would
00:09:24	Morgash the Gravemaker	So if I'm going to shoot my weapon, that's free in this version.
00:09:58	Morgash the Gravemaker	Okay. Okay, perfect. That was my question. Perfect.
00:09:58	DM	yep yeah they explicitly say that you can use multiple masteries in the same turn okay um did you need to figure out your loot situation after you've uh discovered the kestrels the kestrel company's um items that were left over from when they were slaughtered by the displacer beasts
00:10:29	DM	yeah i attuned it to you for you anthony okay yeah okay all right yep click actors party inventory

00:10:35	Gren Greenmantle	like it so let's let's everything's in party loot so we'll carry it home is there anything that's story related in there the charcoal sketch of a weeping woman hmm yeah the party folder and then the party
00:10:39	Jetten Elisedil	I don't think anybody's taken anything. It should be in the, the commute. Oh, okay. So how do we,
00:10:44	Morgash the Gravemaker	No, I already took the Mao. I took the Mao out of the treasure.
00:11:00	Morgash the Gravemaker	That's what's going to be my next question, if I could watch you into it.
00:11:16		The Party: Charcoal Sketch of a Weeping Woman Adventuring Gear A loose leaf of paper, the charcoal smudged from handling: a woman beneath — or becoming — a great pale tree, her face buried in her hands. Her hair ...

00:11:20	Thomas A. Invictus	There's a faint rain cap and an everblood petal, and I just, we should keep those in the back of our mind in case they're story related.
00:11:41	Jetten Elisedil	how do we access that again? Is it through the party or items? Inventory. I don't see the inventory
00:11:48	Thomas A. Invictus	The actors, I think, and I, my vote would be to go back to town in the square area, is that what you're saying?
00:11:49	Gren Greenmantle	that inventory i'm gonna i'm gonna take the pearl of power in the middle tab did you open the party double click on the party and then once that that windows open it'll be in the middle it says what
00:11:50	DM	yeah and then you can right click on something and view it okay go from here
00:11:59		Party Stash: Gren Greenmantle took 1 × Pearl of Power from The Party.
00:12:05	Jetten Elisedil	though. Yeah. And that, but I have, go ahead. Inventory. There is, I see it. All right. What,
00:12:32	Gren Greenmantle	where did that go all right i can i'm gonna tune this all right now i'm attuned to three oh i can
00:12:52	Gren Greenmantle	oh so every death saving throw my i make is success that's weird yeah oh no i have four things attuned now i gotta unattune something so i'm gonna i'm no that's what i'm gonna attune so i'm gonna put the periaptive wound closure back in the thing that puts 400 gold in the party loot or 200
00:13:02	DM	i think you have the wood closure thing i don't know if it's excess but it's yeah you do roll of power stone a good luck wand and okay um you're currently at the camp where you face the displacer beasts uh the sun is about to set and if you choose to go back to the town um you've got a good walk to go oh you're not actually on the scene i could take you there if you want this is the this is a

00:13:17		Party Stash: Gren Greenmantle stashed 1 × Periapt of Wound Closure in The Party.
00:13:22	Gren Greenmantle	gold if we want to sell it should we just camp in one of these tents yeah then matt seemed to imply
00:13:47	Jetten Elisedil	what did we decide if we were going to go to the, which location we're going to go to guys next? I mean, we had initially said the caves, but then the letter, I think said that the Kestrels had already explored the caves. Okay. Uh-huh. Yeah. I think I agree. We should go to the caves. And I'm going to grab these arrows guys, since I'm the one that's using the bow. If I, if I can
00:13:54	DM	staging area mm-hmm yes it's uh it's um like i said so let me do this uh yeah you're already there um
00:14:09		The Party: Marn's Journal Adventuring Gear A rain-stiffened journal wrapped in oilskin. Water has ruined most of it; five entries survive."Greenrest is the kindest town I have known. The mayor fed us for nothing ...
00:14:10	Gren Greenmantle	that that wasn't the case though yeah yeah yeah so should we camp in this little enclosed area oh shoot i was gonna like equip myself i had never equipped myself properly at the beginning
00:14:13	Morgash the Gravemaker	But it seems that they didn't get further into the caves because the dead started attacking them. So probably we should prepare to go into the caves because based on what we have from the journal, we know what we're expecting.

00:14:44	Jetten Elisedil	figure out how to do it. Oh, this is where we ended up with the displacer beasts. I would suggest
00:15:01	Gren Greenmantle	i'll do it next time right yeah um my dark vision's not working all right now i can see

00:15:29	DM	it's getting a little dark out so either need to make a decision if you want to rest here for the night actually several of you are quite wounded um or if you want to make your way back to the town i wouldn't worry about it for now oh here let me just delete your actors because i didn't push you on
00:15:44	Jetten Elisedil	we rest here for the night guys. Yeah. Mine's not either, but that's all right. All right. We're
00:16:08	DM	the screen i thought i deleted those now you can probably see there you go the lantern of revealing okay anything else you want to do before you yep yes um i could take you long rest i wouldn't worry
00:16:27	Gren Greenmantle	so should we should we uh sort of camp in this area and leave uh yeah at least we're covered and hopefully that since the doppelgängers were the alpha predators we won't we won't be uh running
00:16:34		Party Stash: Jetten Elisedil took 17 × Arrows, +1 from The Party.
00:16:35	Morgash the Gravemaker	Okay.
00:16:39	Thomas A. Invictus	Yeah, I agree with that.
00:16:40	Thomas A. Invictus	But yeah, the cave is what, the Lost Shrine?
00:16:54	Gren Greenmantle	into uh wandering monsters the light of yeah yeah the statue sorry say that again oh where's the
00:16:57	Morgash the Gravemaker	Yeah, and we still have that light, right?
00:17:08	Morgash the Gravemaker	Put it in the center of the room, probably.
00:17:11	Jetten Elisedil	going to take a long rest, like some, like some real adventurers. Have we finished searching this area guys? I mean, we had a pretty late fight. I don't know if we thoroughly looked through these
00:17:21	DM	about shifts uh just for sake of expediency um feel free to click the wrong the long rest button on your characters and you wake up in the morning yeah you've searched it you found the you know you found um over here you can see the corpses of three members of the kestrel company that made it out of that area that they explored uh and were later killed presumably by the displacer beasts you found over here a debris pile with the weapons that you took and um you also found some loot in this cramp stape crate stamped full larder which you recognize is the general store in green
00:17:31		Jetten Elisedil: Jetten Elisedil takes a long rest.
00:17:31		Thomas A. Invictus: Thomas A. Invictus takes a long rest.
00:17:35		Gren Greenmantle — Long Rest (8 hours, new day): 1d6 + 1 = 6
00:17:47	Jetten Elisedil	ruins, right? Or did we? Okay. So I'm looking guys at the treasure map and we left green rest and we

00:17:50	Morgash the Gravemaker	I think that there's nothing else. Well, probably the statue.
00:18:31	DM	rest you also have uh some journals and other things but otherwise it's fresh in the morning and you feel ready to go um what's your question anthony this thing um no i mean it is not the same woman that you saw in the dream this looks like some kind of old bay related shrine of a statue that was once
00:18:43	Morgash the Gravemaker	The statue, we recognize the woman.

00:19:36	Jetten Elisedil	went into the misty forest, right? Isn't that right, Grant? I said, we went into the misty forest when we were looking for the displacer beasts when we left green rest. So we're, we're still like right in the immediate vicinity of green rest. So which way are we going to head in order to, um, march on our next objective? If you go to journal, a treasure map to the broken heart, it's all the way at the bottom. Yep. I think that was something that they had mentioned. Let's see. That was in Marn's journal.
00:20:05	Gren Greenmantle	treasure map is it in journal see the adventure a lot i don't play your handouts okay play in the player handouts so what was the cave though that we were going to explore is there a cave here so while while we're here let's just do the the cave they they had mentioned it in in moran's journal

00:20:18	Thomas A. Invictus	The treasure map?

00:20:43	Jetten Elisedil	So it says, uh, what's it say? Started our search through the poor possible ruins. The relic is in one of them. We're sure. Oh, they went to the shrine is what it is. The shrine, the lost shrine. No, I don't know if this is the shrine. Cause this, cause what they say is it's a, it's a catacomb cut deep under the hill, the dead laid in rows in the walls. They did not stay in them. So that sounds like undead skeletons. Well, on the map, it's on the lower,

00:21:00	Gren Greenmantle	that's the shrine and so that's what these caves are oh so this this is the shrine that's why we have this lady right here okay so we seem to be in this is the shrine so there's so do we know where that is
00:21:11	Thomas A. Invictus	No, I don't think of that one.
00:21:24	Thomas A. Invictus	According to the, it's the farthest away, like out of everything on the treasure map, the shrine is the farthest away from Green Rest. And it's probably about as far away from Green Rest as the edge of the forest, you know, where we came in on the road. A good walk. I mean, I think that's fine to me, the Lost Shrine is fine for me. Because I'm nervous about the Temple of Shark. I'm a hag coven.
00:21:25	Gren Greenmantle	is that the i think we yeah undead so should we get some i think fireworks against them i can't remember

Could that possibly be what's going on with Morgash? Yes. Yeah, I have a Psalter. I'll pull that up and I'll say a prayer.

01:26:04	Thomas A. Invictus	Well, let me, I'm going to go back to Marne's journal. It says, Aldous's wounds closed. He did not, but he did not mend. Edda would not leave him. I suspect Edda's still down here somewhere. And if we rest, he could turn into a white at some point. You know, that's what I'm worried about because Aldous seemed to be going through the same thing. And if we wait too long by resting, then maybe that could be bad for him.

02:25:57	Gren Greenmantle	damage you know yeah nice what about ostrich i want to search ostrich's body can we add that to the party and now do we think we could would be able to use these swords or there's something that

02:26:52	Gren Greenmantle	that yeah yeah let's search the throne and the surrounding areas huh i would like to short rest just i would um and i've used matt i don't know where on my character sheet my metamagic uh where how

02:27:01	Jetten Elisedil	the throne and around the throne, those are not anything significant. What do you want to do, guys?
02:27:19	DM	hmm okay um the throne looks well worn and um the entire area looks crumpled and decayed but you don't find anything of interest in terms of loot or anything like that the doors to the west are locked and the doors to the right are open west east yeah probably font of magic or something or yeah you're out yeah oh two of four all right yeah you get some back on short rest i think yeah i think you get one or two back well i thought in the new rules you got them maybe it's as you level up further
02:27:35		Party Stash: DM Assistant added 1 × Necrotic Sword to The Party.

02:27:50	Jetten Elisedil	Yeah. Let's rest. Listen, you guys are all wounded. I'm the only one that hasn't been wounded by the white. I think it might be a good idea if we go up to the surface and, and camp and take a rest for
02:27:59	Gren Greenmantle	where my metamagic points are oh there it is okay i should i no it's fun magic i should have no i'm not out i i had passed i used two of them i'm at yeah uh i don't know no it says long rest um okay um what do once for long rest when they in dnd 2024 revise will sorcerers get back a number of sorcerer points equal to half their sorcerer level rounded down once per long rest when they finish a short rest so i think so i do get it back yeah i know i get to i get them back so i mean we heal on a short rest
02:28:03		Jetten Elisedil: Jetten Elisedil takes a short rest.
02:28:23	DM	yeah i knew you get some back yeah yeah you get hit dice back on a short rest
02:28:43	Jetten Elisedil	the night, guys. Right. But what I'm saying is because you've been attacked by a white, all three of you.
02:29:08	Gren Greenmantle	though right yeah yeah we get hit dice back the only thing we won't get is the is like all of morgash's and thomas's uh yeah but we're we're not sure that that'll return on a long rest it might but it also might fester and i don't know i want i wanted to i'd like to take a short rest so that i could we could get
02:29:22	Jetten Elisedil	Okay. Well, do you want to continue then? Do you want to see what's on? Let's do it. I think you get
02:29:44	Gren Greenmantle	our regular hit points back i need regular hit points back and i can't get my back yeah huh that's
02:29:47	DM	yeah and you can refresh abilities like like uh all the fighter abilities that morgash has you get hit points back um when you short rest you get to spend hit dice which are you get a number of hit dice per level it's probably a good exercise for you to learn how it works all right so yeah on your character sheet there's like a fork and a knife and that says short rest and you can see uh hit dice you should have four available um to the right of that you can roll and that will give you hit points back yep and you can keep doing that until you run out of hit dice if you want yep and then when you short rest you get all of your superiority things back too and your action surges come on um when you do long rest yes you get dice back and you get points go to

02:30:32		Gren Greenmantle: Gren Greenmantle takes a short rest spending 2 hit dice to recover 7 hit points.
02:30:40	Gren Greenmantle	weird and then when you do a long rest you get back a certain number of hit dice how much how many hit dice do you get back on the long rest okay i'll figure it out how many we get all our hip points back but not all of our hit dice which is what we recover on a on a short rest how many so there is a little half your total maximum rounded down it's a there is a little bit of attrition through through long rests and that's sort of how they do it all right i'm close enough okay

02:32:01	DM	you get through it um that's interesting um so you walk in and some of you who could see you see in the distance another white flanked by two zombies um she looks up and
02:32:09	Gren Greenmantle	um so we didn't have we didn't find a key or anything to the locked door maybe we should go through the open room first and then check out the closed the locked room after because there might be a key in the open area oh i know i i had i had thought that that might have been the
02:32:27	Jetten Elisedil	Morgash, do you want to join me here? There we go. I can see. That's a real dungeon crawl. That seems
02:32:50	Gren Greenmantle	big mega battle so i used a lot of my resources yeah i don't see this lady anywhere
02:32:56	Jetten Elisedil	like an appetizer. She's over here on the dais. Good one. Would you like us to release you? How can we

02:33:16	DM	she sees blood on you where you're from and she says you came through the crypts that means osric is finally dead or you would not be standing in that doorway she waves her hands and beckons the zombies not to move he was very old and very tired i hope he was curtis with you he usually managed courteous at least he used to he doesn't suffer insolence well yeah and she just looks at you with
02:33:51	Thomas A. Invictus	In fact, I tried talking with him and he just attacked us. What can you tell us about this place?
02:34:04	Gren Greenmantle	um give you the final death would you do that willingly i think can you give us some hints on
02:34:13	DM	sort of blank eyes i am hesper i will answer plainly no need for riddles no need for bargaining to be honest i haven't even talked to anyone in a very long time what is your question the grave heart it's in the grave heart it's in the room behind you i am the mortician i prepare the whites for the grave heart she just sort of sighs i can't even remember how long ago 300 400 500 years
02:34:45	Thomas A. Invictus	Well, we're searching for a magic artifact. Do you know of any such artifact in here?
02:35:04	Thomas A. Invictus	What's the grave heart?
02:35:19	DM	ago osric kadok and i we were treasure hunters we found a glowing shard in a cave it was warm beating the size of two cupped hands we saw it we couldn't put it down we brought it here to keep it safe after time our greed turned into undeath we cut the stair so no else could take it we cut every way in that we knew and so we stood with the grave heart lonely but it gave us life it's here guarded by cardock waiting for the next body to be prepared as a white to keep us company
02:36:12	DM	but i'm tired i i don't want to do this anymore yes i would yes i would oh that is cardock one of the three of us that found the grave heart he's the one closest to it he's the one that's most inured with it he won't speak to you like i speak to you he will only seek to protect what is his and try and kill
02:36:21	Morgash the Gravemaker	Could be reverted.
02:36:34	Thomas A. Invictus	Tell us more about the person, the guardian of the heart in the other room.
02:37:13	DM	you there is no bargaining with cardock he is a white like me and osric there is a key in the chest next to me you may have it i'm so tired east this is the room to the east
02:37:18	Gren Greenmantle	how he can be defeated and the grave heart be liberated and used properly and to what is in the room to our east i point to the opposite direction sorry the room to the west and is that all that's left left him you he and you are there other are there other dangers for us here other than
02:37:29	Jetten Elisedil	access the room? Let's give, let's give her peace. That's easy. I'm on it. And you're near the,

02:37:38	Thomas A. Invictus	Tell us about the process. Hang on, hang on. I want to ask her.
02:37:52	DM	that is where cardock guards the grave heart well i'm not even a challenge anymore there's nothing down here that sleeps i want to sleep he's all that's left no the zombies won't hurt you and when i die they will die with me yes i have the tools they are in the test take that the medicine and the chest and the key i have no use for either anymore i'm sure you will need them both before
02:38:20	Gren Greenmantle	the two zombies oops i'm stuck does kardak ever come out of his room so once you are gone would we be able to rest here safely and recuperate are there other whites and skeletons that roam
02:38:31	Morgash the Gravemaker	Before that. Before that. Since you prepared the people here, can you revert the damage?
02:38:41	Morgash the Gravemaker	Yeah.
02:38:56	DM	the night is out no he's hopelessly inured to the grave heart i suppose if you think this is a place where you can sleep and rest i've never been able to i don't know what have you killed sounds like everything
02:39:29	Gren Greenmantle	that come that would come into this room the hike recount for for all the everything that we killed on the way here how would you like uh matt my character's sort of stuck right here yeah so should we uh how would you how would you like us to uh end your life morgash you want to
02:39:55	DM	oh and a wall yeah oh yeah it is what was that she walks up to the platform and she lays her head on it like this yeah all you need is a coup de grace you slice her head off and hesper the mortician's body just rolls off to the ground simultaneously the zombies simply collapse

02:44:20	Thomas A. Invictus	Because I don't have spell slots.
02:44:25	Jetten Elisedil	I mean, Morgash and I are fine, but if you guys want to go, let's go, let's go, let's go rest. Okay. No, I, I mean, I don't think so. Yeah. You have to do it. You have to click it on your

02:44:46	DM	after an entire day passes um i thought it was two for one or something it says in the thing no
02:44:48	Gren Greenmantle	all right so let's short rest to get morgash healed because he's still got he's still way down and then let's go and attack let's go fight okay um i let me see what let me see what i can do i wish i had that daylight spell still but i don't um how many sorcery points to create a spell
02:45:01		Jetten Elisedil — Roll Hit Dice: $\max(1, 1d10 + 1) = 7$
02:45:06		Jetten Elisedil: Jetten Elisedil takes a short rest.
02:45:12	Morgash the Gravemaker	Are we going to churn rest?
02:45:14	Thomas A. Invictus	And how many of you don't have any spell slots left? I have one. When I click on short rest, but you don't want us to click on the new day button, right?
02:45:32	Jetten Elisedil	character. Oh, wow. This is a lot smoother. So Matt, I think as a point, I think as a fourth
02:45:40		Morgash the Gravemaker — Roll Hit Dice: $\max(1, 1d10 + 3) = 4$
02:45:46	Gren Greenmantle	it says it's on a table but i don't know where the table is how many it's not worth it no we just do yeah i'm gonna do the i'm gonna get my hit points back that was weird why does it oh okay i was at full i'm just minus three because of the i don't understand yeah okay okay but it's weird because it says minus three and then i have 21 out of 23 so the math's not mathing the i should probably have 20 20 hit points instead of 21 yeah oh yeah i'll
02:45:48		Morgash the Gravemaker: Morgash the Gravemaker takes a short rest spending 1 hit die to recover 4 hit points.
02:45:59	DM	oh yeah hit point loss maximum hit point maximum loss that's the white right lifetrain yeah yeah let me see here uh yeah that's weird right oh no you could go out you could heal up to 23 like you really have 26 total

02:46:58	Gren Greenmantle	yeah okay so i i i'm just gonna give it to me myself and take away a hit die because it wouldn't it didn't let me do it when i short rested i clicked do it until maximum and then oh i guess okay there we go all right there's my okay now i'm full the auto spend didn't work for some reason um uh yeah i think i'm okay uh i would probably bless us is okay okay i have two little twos yeah well we're not we're going in there but that's that's the dungeon management that
02:47:06	DM	okay all right that's fine yeah oh i have to unlock the door for you sorry
02:47:13		Gren Greenmantle — Roll Hit Dice: $\max(1, 1d6 + 2) = 3$
02:47:29	Thomas A. Invictus	3D? Oh, yeah. The thing about that, I thought about that, but the thing is that I only have one spell slot left. And I kind of think I want to use to try to use Divine Smite because I'm going to get a 3D8 radiant damage on that guy.
02:48:00	DM	yeah i mean half of dnd is resource management that's okay i mean this is like a learning thing but yeah yeah in the old edition especially because it came free now you have to use a bonus action yeah and you can't ride a smite with a crit anymore because it's a separate action
02:48:03	Gren Greenmantle	yeah yeah so we were we didn't do the greatest job with that i had thought that yeah so let's let's go for it we can yeah a lot of paladins just don't cast any other spells and basically just divine smite everything because it's it's so much it does so much damage okay yeah oh so you can only do
02:48:40	Gren Greenmantle	one around um i need i need to use the bathroom real quick i'll be back in a minute all right yeah we're
02:48:49	DM	okay yeah i have like a bunch of notes for things to fix but the combat progresses better that's for sure well for me it does i don't have to click as many buttons explain to me why you think that okay so let me go to rules classes
02:49:08	Morgash the Gravemaker	It's been awesome.
02:49:16	Jetten Elisedil	level Ranger, I mean, not to do all this, but I think I should get four Hunter's Marks plus the one one that I get, that's just as a Ranger. So I think I should get, I think I should get five a day from the player's handbook. Cause I think it's level based on how many uses you get for it.
02:49:47	DM	favorite enemy you always have hunter's mark prepared you can cast it twice without expending a spell slot you regain all expended use for this abilities with a long rest the number of times you cast without a spell slot increases when you reach certain ranger levels let's look at the chart there's probably a chart there's also a chart our favorite enemy is still two when you get to level five you get an extra one at three for three yeah yeah it says you get two up for levels one through four three five through eight four nine through and so on and so forth yes yes yeah well this is like yeah oh yeah it goes up now

02:50:11	Jetten Elisedil	There's a chart. Yeah. Okay. So it's level five now. Okay. Cool. I mean, there's, there's so many changes with this past couple of years. Plus, plus I'm an old head. I mean, I'm first edition. So, I mean, my, yeah, I mean, I still, I still, I'm still, I'm still getting used to the armor class. It's the opposite, you know? Yeah. Do you guys remember this might've been a homebrew, but do you remember the way we used to play is if you, if you got a critical, if you rolled a 20, then you would roll again. And if you got a double 20, it was like an automatic kill. Yeah. I think I'm sure that was like never an official rule. I'm sure that was
02:50:48	DM	right yeah that actually sounds somewhat familiar there was a couple variants i remember like that and then
02:51:15	DM	no but in in third edition crits were really hard like they had critical ranges so you could a crit could be 17 through 18 and if you got say like an 18 and you were in the range then you had to roll again and still be in that range and then it would be a critical so you had to roll twice to get a critical
02:51:16	Jetten Elisedil	like a, like a homebrew rule, but that was pretty common. Oh, interesting. Yeah. Interesting.
02:51:45	DM	but yeah i remember when chance to hit ac zero yeah that was good oh like i have negative four this is awesome yeah yeah yeah yeah now like ac i mean like 20 what's thomas's i think he's like 21 that's a very good ac like 80 percent of the time stuff's not gonna hit him paladin's are always very tanky yeah wizards weren't even that bad oh yeah i used to have a lot of those yeah oh did you really
02:51:50	Jetten Elisedil	Yes. Or you'd have a negative AC, right? Yeah. Oh, that was great. If you had like a negative four AC, it was like amazing. Yeah. Yeah. Yeah. That was a terrible AC. Yeah. You know, do you guys ever, do you guys ever read all the old dragon magazines? I mean, they're so out of date. Yeah. I have, I have all of them. I have all, I have all of them digitally. Yeah. But I think, no, no, I was going to say the, the, the OG ones I had. So when I was playing would be like early eighties. Right. So I probably had like issues like 60 through 90. I think my mom,
02:52:38	DM	oh yeah i have the pdfs too yeah i remember when like oh go ahead yeah it's kind of like mine yeah oh yes the comic scarf the dragon
02:53:00	Jetten Elisedil	my mom tossed all those, you know, which I know with all my other stuff years ago, I wish, I wish I still had it, but like Wormy and, um, Oh my God. Narf and Phil Folio, all that stuff. I used to love that stuff. Oh yeah. Ed Greenwood had a bunch like Mordecai and then, and then Gygax had a bunch. And then it was like, you know, there's always something on like encumbrance or like, like a new illusionists or something, you know, like a lot of the stuff that's part of the game now, but it was, it was pretty cool. No. Well now it's all digital. Right. But I'll tell you what, I, if I wanted to be a weirdo, I might, you know, hire somebody to like get, uh, like a full set of those dungeon mages. Somebody has them, you know what I mean? Yeah. But I mean, it would be cool to

02:53:17	DM	and remember all the ed ed uh greenwood articles the ecology of yeah yeah like
02:53:38	DM	yeah yeah yeah yeah it was but i i have to like think like nowadays like who would actually like read all that minutia
02:53:50	DM	and it's simplified you know people just had more time well i mean they're you can get them electronic i've read through them so i was like oh i remember that article yeah there's probably yeah there's probably someone on ebay that has a bunch but yeah all right i see gran and morgash at the end uh the ones from osric's room are unlocked so you can go through the one that was locked
02:54:07	Jetten Elisedil	have the paper ones, you know what I mean? Just to, I mean, if you're really want to be a dork a hundred percent, 100 percent, are we back yet guys? All right. Well, we need more guys to open the door. Well, you guys got to come, come over to the West. Thomas and I are here. Oh, you guys already went in
02:54:30	Gren Greenmantle	back we're in a separate we're a separate room no we're farther west i think than you are yeah yeah this is the room i used right right here you're stepping in it yeah now more gosh anthony's
02:54:56	Jetten Elisedil	on your bathroom break. All right, let's go. Thomas roll, roll up survival check. Thomas get
02:54:57	DM	yeah hmm yeah don't step there first perception to see if you even know to make it or walk around it i'm missing i see jetton gren thomas yeah we need a morgash here let me get you hold on how did you get there oh yeah
02:55:29	Thomas A. Invictus	I'm not next to Rin.
02:55:30	Thomas A. Invictus	We're all here, we're all standing right next to you.
02:55:37	Morgash the Gravemaker	I'm in the camp.
02:55:48	Jetten Elisedil	us all. Well, we should wait for everyone to get here. Yeah, but I'm in a, I'm in a car or I only see grim. All right. Well then maybe I might be, I think I might be frozen then. Now I'm in the camp
02:55:49	Gren Greenmantle	all right should we open the door and just charge in guns blazing no close the door don't open the door yeah jet near a little butt well should i bless everybody and we just charge in and attack
02:55:51	Morgash the Gravemaker	I don't know.
02:55:55	Morgash the Gravemaker	Oh. Someone. Okay.
02:56:14	Morgash the Gravemaker	Are we going to open the door?
02:56:22	Morgash the Gravemaker	That was good. And that's how I end up at the camp.

02:56:24	Gren Greenmantle	yeah we're all in here just come closer to come closer farther west yeah i'm not in the camp all right so wait i'm gonna bless everybody and we'll try and the two fighters charge in thomas and morgash charge in and we just attack all right let me i'm gonna upcast bless hold on a sec use you cast
02:56:34	DM	yep uh you might want to reload your browser if that's a problem that happens you just reload browser
02:56:49	DM	it refreshes it's all good oh weird what the fuck use the yeah okay all right well
02:56:58	Jetten Elisedil	too. Everybody's in the camp. Okay. I'm here, but I'm back now. Let's do it. Yup. Yup. So what happens when you upcast? You just, you just, uh, use an extra spell slot. Right. But does it cost more to cast it that way? Okay. Right. So you have fewer slots for second level. Right. Right.
02:57:36	Gren Greenmantle	you cast it at a higher level and with some of them they you so it says three creatures at second level you get four creatures so this way i can bless all four of us it's a second level spell as opposed to a first level spell so second level yeah yeah and they're more powerful so now i can't cast like shatter or scorching ray all right let's charge in because it's time the clock is ticking charge in
02:57:54	Thomas A. Invictus	Andrew, I believe, hang on, I'm just not believe. Andrew, when we gain another level, our characters are going to have level 2 spells. All right, let's go.

02:58:18	Thomas A. Invictus	I'm going to use my shield ability.
02:58:20	Gren Greenmantle	thomas and morgash open those two doors and just all right let's just every time i see all those guys up there i keep on it feels like we're getting surrounded i'm like oh shit there's so many of them
02:58:24	DM	you open the doors and sure enough you see a hooded figure wielding a scythe that is glowing with a necrotic type of fire um you see some kind of ritual altar with lots of skeletons and glowing eyes and where i'm pinging you see a large crystalline shard large crystalline heart uh mounted in some kind of container i need to redo the one i don't like the way the combat carousel like is in the middle i like the baldur's gate style where it's just all in one row and people don't rotate anyways yeah they actually uh yeah the author disappeared so this one came over and that's why
02:59:04	Jetten Elisedil	three, four. Graveheart. Oh, Graveheart's an adversary. Oh, that's, but it, it, it looks like
